

FleetNav™ DIRECTIONS

So many roads, bridges, tolls, risks and hazards.

How does each one affect your bottom line?

The Road to the Best Routes

FleetNav Directions helps your drivers get to their stops on time at the lowest possible cost. Seamless integration with your dispatch system means drivers can request directions from where they are to where they need to go — be it a pickup, drop-off, fuel stop¹, or any other waypoint — directly from their cab. FleetNav Directions leverages the industry's most accurate model of the road network, and is optimized for heavy trucks. By providing least-cost routes, FleetNav Directions helps you minimize operational costs while improving on-time service to your customers.

FleetNav Directions Answers Key Operational Questions

- How can I reduce out-of-route miles?
- What is the lowest-cost, on-time route for my driver?
- How can my driver find his way to the customer location automatically?
- Is my driver taking truck approved roads?
- Am I creating the safest routes for our drivers?

“As a result of their optimized truck-to-door routes, tailored to our transportation needs, Maptuit is providing our company with a solution that will help us reduce out-of-route miles, optimize fuel costs and manage our variance.”

Chief Operation Officer
