

FleetNav Fuel
helps you
squeeze every
penny out of
every mile.

The Road to Lower Fuel Costs

A powerful addition to FleetNav Directions, FleetNav Fuel significantly reduces fuel costs by providing sophisticated route analysis and fuel price evaluation. When drivers request directions to their next stop, FleetNav Fuel automatically calculates an optimal fuel plan and delivers it as part of the direction set. Utilizing real-time pricing information tailored to your fleet's needs, FleetNav Fuel saves you money while improving compliance with your fueling network.

FleetNav Fuel Answers Key Operational Questions

- What is the most efficient fuel plan for this load?
- How do I know that my drivers are fueling in our network?
- How can I reduce out-of-route miles?
- Am I creating the safest routes for our drivers?

“It is no secret that fuel is one of the top expenses for trucking companies. We are always looking for innovative ways to intelligently manage our fuel costs. With Maptuit’s FleetNav not only do we benefit from the savings we can realize by providing our drivers with optimized fuel plans, but we also benefit from the savings associated with FleetNav’s least-cost truck-friendly routes.”

Fuel Manager

Optimize Your Fuel Plan

FleetNav Fuel gives drivers the most cost-effective route to their next stop. Each calculation is based on the following critical criteria:

- Current vehicle location
- Current fuel level
- Vehicle fuel consumption
- Current in-network fuel prices
- Location of the final destination

Monitor and Manage Compliance

FleetNav Fuel helps you derive maximum benefit from your fuel network.

- Find the best fuel prices within least cost routes
- Lower fuel and operational costs
- Monitor actual fuel transactions
- Increase driver compliance
- Maximize fuel network savings

The FleetNav Advantage

Proprietary Truck Data

- Data for 53' trailers
